Food and beverage providers:

In 2020 the local Council have introduced significant new charges for rubbish and recycling collection. Rather than pass these costs direct to vendors, we are increasing our focus and extending the resources of the Wash Against Waste trailer. This facility supplies you with washable plates, bowls, cutlery, mugs and glasses to serve your food and beverages in and provides a team of volunteers to distribute, collect, wash and return these resources to you. **There is a \$20 surcharge for vendors who elect NOT TO USE the Wash Against Waste facility to help offset the costs of rubbish removal.**

Applefest 2020 will also be **plastic bag free**: please help us minimize your waste contribution.

Please send me more information about the **Wash Against Waste program** YES _____

Special Requirements _____
